

Helping you and the Economy Grow

ECONO BEE

The EME BEE Status Document Pack

EME Document Pack - A certain group of businesses are exempt from B-BBEE – Exempt Micro Enterprises (EMEs). An EME is an enterprise that has a turnover of no more than R5 million per annum. EMEs in Construction, Forest and Tourism industry follow respective sector code turnover thresholds as follows;

Sector Code	Turnover Threshold
Codes Of Good Practice	<R5 million
Construction Sector - Contractors	<R5 million
Construction Sector - Built Environment Professionals	<R1.5 million
Forest Sector	<R5 million
Tourism Sector	<R2.5 million

EMEs can optionally choose to become more BEE compliant, but the codes of good practice state that they need do no more than inform their customers that they are exempt.

To save you time EconoBEE can design a set of documents that states your EME status and assists you in getting this message across to your customers, who invariably still do not understand how BEE operates.

The following documents are included in your EME Document Pack

Summary BEE Policy

EME Exemption Statement

Exempt Micro Enterprise (EME)

Exemption Statement to Customers Regarding Procurement

Summary of the B-BBEE Codes of Good Practice as approved by cabinet in
December 2006

Booklet – B-BBEE and how to create a BEE Scorecard

Costs: R750 incl VAT

How to obtain this service - Email eme@econobee.co.za and we will send you a short questionnaire from which we will design your own BEE exemption statement.
